

LESSON 15

NEGATIVE NUMBERS

- OBJECTIVES:**
- Understand how to calculate with negative numbers
 - Perform calculations with negative numbers

Negatives are usually entered following the number instead of before it as it is written.

Exercise 1: Perform these calculations.

1. $145 + (-16) =$ _____
2. $-245 + 176 =$ _____
3. $98 + (-44) =$ _____
4. $-9,824 - 2,477 =$ _____
5. $4,366 + (-1,366) =$ _____
6. $-10,998 + (-10,472) =$ _____
7. $129 + (-67,239) =$ _____
8. $90,873 + (-39,093) =$ _____

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____

Lesson Review 15: Perform these calculations.

1. $167,896 + (-2,358) + (-37,297) =$ _____
2. $-99,376 + 34,348 =$ _____
3. $176 + (-398,348) + 98,347 =$ _____
4. $87,348 + (-22,348) + (-18,565) =$ _____

1. _____
2. _____
3. _____
4. _____
